GIN MENU

We only pour the best gins from around the world! We hope you enjoy our House 'Ginspirations'
Our perfect pour is 50ml to match the 200ml Fever Tree Tonic Included with each Gin!

An Introduction to Gin

Invented in Holland around the 17th century, Genever was originally a medicinal remedy for all kinds of ailments and was later discovered by English troops fighting in the 80 year war who marvelled at the 'Dutch Courage' the elixir gave them.

They brought the concoction home to London where it was refined and became gin.
From Gin Lane to the 1920s speakeasies, Swinging London to Studio 54 – styles may have changed but gin remains as iconic as ever!

Fever Tree Tonic

The brainchild of Charles Rolls and Tim Warrilow; Fever Tree tonic was first released in 2005. Using spring water and 8 natural botanical flavours including quinine imported from Rwanda and the Congo, to the bitter oranges from Tanzania, has brought about a tonic of true quality that perfectly accompanies some of the gins we serve here at The Star Inn The City.

The tiny champagne-like bubbles that rise help to capture the aromas of the gins and enhance their natural taste. There are no artificial sweeteners, flavourings or preservatives used in the making of Fever Tree.

BEER

Pilsner Urquell Plzeň

The world's first Pilsner. Brewed in Plzeň.

Fresh, unpasteurised and delivered direct from the brewery in the Czech Republic every week.

A round trip of almost 2000 miles is required weekly to the small Czech town of Plzeň, the home of Pilsner Urquell Brewery since 1842, to fill our four 500 Litre (880 Pint!) copper tanks that sit high in our reception area and are double stacked in our River Room.

With a maximum of 3 weeks' shelf life on this unpasteurised product, it is stored in our tanks between 5-8°C to be served at 3°C.

When our Tapsters pour the beer, it is the first time the beer has come into contact with the atmosphere.

Unlike most keg beer, the 'Liquid bread' (as the Czechs refer to it!) is lightly carbonated at the brewery.

No gas is used to extract the beer from the tanks; compressed air and gravity propel this only slightly carbonated nectar to our pumps!

4.4% **£5.5/pt**

Bad Seed, Session IPA Malton, North Yorkshire

Just one of Chris & James's award winning and unique brews, Session is an easy drinking IPA, unfiltered and unfiltered.

No two batches are the same as Bad Seed showcase different hops in each brew; please see the bar team for the hops used in the current brew!

4.0% **£5.3/pt**

Great Yorkshire Brewery, Yorkshire Lager Cropton, North Yorkshire

Clean, crisp and refreshing, with a citrus aftertaste. Born & bred in Yorkshire, it's real honest beer made with proper Yorkshire 'Watter', British Barley, Malt & Yeast with whole Hops & Nowt else!

4.2% **£4.75/pt**

We are proud to work with a number of local breweries, from which we source our rotating guest beers.

We have 2 cask lines where only one barrel at a time is carefully planned in by our bar team, ensuring a different cask of hand pulled ale is always available, Always Yorkshire!

Our keg beer offering is a moveable feast, from Yorkshire and further afield.

We are proud to offer some of the very best beers and lagers - if you've seen one somewhere that we haven't yet...let us know what you thought!
